## Oklahoma Health Insurance Exchange Steering Committee

Thursday, March 3, 2011 1:00 p.m. – 2:30 p.m. OSDH / Rm. 307
Dr. Otho Whiteneck Boardroom
1000 NE 10<sup>th</sup> Street
Oklahoma City, OK 73117

Exchange Project Managers:

Derek Lieser

Nicole Prieto Johns

## Agenda

- I. Welcome Dr. Terry Cline
- II. Steering Committee Organization Julie Cox-Kain
  - a) Oversight
  - b) Charter
- III. Planning Grant Derek and Nicole
  - a) Status of Planning Grant Request for Proposal (RFP) for Gap Analysis Contractor
  - b) Work Group charters and timelines
  - c) Priority Workgroups: Governance, Eligibility, Enrollment & IT
  - d) Minimum requirements for Establishment Grant
- IV. Early Innovator Grant John Calabro & Buffy Heater
  - a) Logical Model Overview Architectural Design options presentation
  - b) Anticipated impact of priority work group recommendations on design options
- V. Next Stakeholder Meeting: March 16, 2011- Nicole and Derek
  - a) Proposed Agenda
  - b) Breakout sessions: Initial organizational meetings for work groups
- VI. Next Steering Committee Meeting Derek and Nicole
  - a) March 10, 2011 1pm OSDH
  - b) Call for agenda Items for next meeting
- VII. Adjournment

## Oklahoma Health Insurance Exchange Project Charter 1.0

**对对自己的对象的是他们是对自己的对象的对象的对象的对象的** 

**Project Mission** 

The Oklahoma Health Insurance Exchange (Exchange) will seek to reduce the number of uninsured Oklahomans and increase access to high quality, affordable health care insurance as well as ensure accountability and transparency in the purchase of insurance as well as to increase the portability and continuity of coverage for individuals and families across the state. The Exchange will be developed in such a was as to simplify the purchase of health insurance for individuals and businesses while fostering competition on price, quality and service in the health insurance marketplace as well as drive quality improvement and cost containment.

The Exchange will be established in the public interest, for the benefit of the people and businesses who obtain health insurance coverage for themselves, their families and their employees through the Exchange now and in the future. It will empower consumers by giving them the information and tools they need to make sound insurance choices. The Exchange will be developed in a transparent process that allows stakeholders and consumers an opportunity to provide input into the development of the system.

## Vision

Oklahoma's Exchange will facilitate the flow of information between consumers, plans, and state and federal agencies. A successful Exchange will provide value to individual and group consumers, offering: meaningful choice of health plans and providers, convenience, "apples-to-apples" comparisons, smooth enrollment and easy payment processing, excellent customer service; and clear value for the premium dollar.

Health insurers will be able to compete on a level playing field and will have access to easy enrollment, billing and payment processing, as well as protection from adverse selection.

## **Core Values**

- Transparency
- Accountability
- Use of corporate decision making processes
- Adopting consumer driven goals
- Open to stakeholder input
- Open and competitive bidding processes
- Efficient and timely processes
- · Achievement oriented

## **Project Definition**

The Oklahoma Health Insurance Exchange will create a more organized and competitive market for health insurance by offering a choice of plans and by establishing common rules regarding the offering and pricing of insurance, and by providing information to help consumers better understand the options available to them. This state-based initiative will be a key element in providing insurance coverage to thousands of currently uninsured Oklahomans.

## Section 1: Overview

The Exchange is an online marketplace that will offer affordable, high-quality health insurance options to individuals, families and small businesses. It is a one-stop shopping experience that will reduce barriers for small businesses that cannot afford small group health insurance as well as to individuals and families who have no insurance or do not get adequate insurance at work.

Project Name	Oklahoma Health Insurance Exchange
Project Manager	Derek Lieser
Project Manager	Nicole Prieto Johns
Project Sponsor	Dr. Terry Cline, Oklahoma Secretary of Health & Human Services
Team	Steering Committee, Stakeholder Advisory Work Groups, Partnering Agencies
Customers	Citizens of the Great State of Oklahoma

## Section 2: Business Need/Opportunity

Determining eligibility - including changes in eligibility - for various types of coverage can be difficult and confusing for consumers. The Exchange will help consumers overcome these complexities. As a result, a key benefit of the Exchange will be streamlined access to care and contininuity of coverage.

Inability to afford coverage has been a principle factor causing thousands of Oklahomans to be uninsured. Historically, the individual and small group health insurance markets have suffered from adverse selection and high administrative costs, resulting in low value and higher premiums for consumers. The Exchange will allow individuals and small businesses to benefit from more effective pooling of risk, which could help reduce premiums and increase market leverage and economies of scale that large businesses currently enjoy in the insurance market.

## Section 3: Description of Final Deliverable(s)

- Review and summarize existing information and resources for Oklahoma's existing systems and business
  processes. Assess and discuss resources and expertise currently available at state entities that may
  contribute to the state's ability to operate and/or oversee an exchange.
- 2. Analyze Oklahoma's current health insurance market, including both public and private health insurance plans and how that market will be affected by the exchange(s).
  - a. A statewide survey of existing insurance carriers about aspects of their product lines and plans;
  - b. Existing state and federal regulations
  - c. Feasibility of offering a state basic health pian option on the exchange
  - d. Best methods to identify/certify qualified health plans for the exchange
  - e. Consideration of the reinsurance/risk adjustment methods
  - f. Review and summarization of effective cost control strategies
  - g. Actuarial modeling related to evaluation of premium structure, rate setting, risk adjustment, and benefit plan and cost-sharing design
  - h. Actuarial modeling evaluating the Medical Loss Ratio (MLR) and other requirements in the non-group/small group markets and potential impact on the Oklahoma insurance market.
- Review and summarize current information and projects related to the development of health insurance exchanges in other states.

## Section 3: Continued

- 4. Recommend one or more alternatives for governance and operation of an insurance exchange system for Oklahoma using a government model, a public trust model, or other structure.
- 5. Develop approaches to communication and information technology infrastructure planning related to the need to provide good information to various groups of insurance consumers, including individuals and businesses, both before and after implementation of the exchange.
  - Requirements for one or more Web-based search engine(s) to enable effective comparison of plans, including consumer characteristics, existing provider relationships, and desired level of cost-sharing;
  - b. Approaches to operating a consumer support call center and/or hiring consumer exchange "navigators" (individuals available to assist consumers) as part of the exchange.
- 6. Procuring a Contractor to develop and/or operate the Oklahoma Health Insurance Exchange.
  - a. Prepare an RFP in accordance with Oklahoma laws, regulations and practices, including the use of the standard template specified by the State.
  - b. Develop an evaluation plan for review
  - c. Develop evaluation criteria for evaluating solicitations

## Section 4: Assumptions and Constraints

## Assumptions:

- Leverage SoonerCare Online Enrollment infrastructure to allow real time eligibility and enrollment determinations
- Use of lessons learn from Insure Oklahoma State government and private insurance partnership
- Use of lessons learned from Health Information Exchange mobilization of healthcare information electronically across organizations within a region, community or hospital system
- Insurance Industry Multiple quality plans will be available and accessible throughout the state
- Exchange Marketability Market-based and customer driven, providing products of choice to citizens and employers

## Constraints:

- Timeline must begin operating by January 1, 2014
- Sustainability must be self-sustaining by January 1, 2015

## Section 5: Scope of Authority

Oklahoma Secretary of Health and Human Services, Dr. Terry Cline, under the authority of the Governor of Oklahoma, Mary Fallin, is the Project Sponsor and Chair of the Oklahoma Exchange Steering Committee. In its deliberations and recommendations to Governor Fallin, the Oklahoma Exchange Steering Committee is responsible to reflect the needs, concerns and recommendations of consumers and stakeholders from across the state. Secretary Cline, together with the Steering Committee provides the scope of authority to the Exchange Project Managers.

The Project Managers shall have responsibility for managing the project from planning to closure. They will have areas of responsibility split between them in the areas of coordination of eligibility and enrollment systems and insurance market considerations. As Exchange staff members, the Project Managers will receive direction from the Secretary of Health and Human Services and will have numerous responsibilities including contributing to stakeholder groups, managing the consultant work and deliverables, and ensuring that communication channels remain open between all parties. The Project Managers are employees of OSDH.

## Section 6: Oklahoma Exchange Steering Committee Members

Representing Agency	Members
Secretary of Health and Human Services	Dr. Terry Cline
Oklahoma Insurance Department	Commissioner Doak (or Designee)
	Mike Rhoads
Oklahoma Health Care Authority	Mike Fogerty
	(or Designee Cindy Roberts)
	Buffy Heater
Governor's Office	Katie Altshuler (or Designee Andrew Silvestri)
Speaker Désignee	Jonathon Buxton
Pro Tempore Designee	Trait Thompson
Office of State Finance	Rich Edwards
State CIO	Alex Pettit
State HIT Coordinator	John Calabro
Oklahoma State Department of Health	Julie Cox-Kain
Oklahoma Department of Human Services	To be named
Oklahoma Department of Mental Health and Substance Abuse	To be named ·

Insurance Exchange Staff, Project Managers	Nicole Prieto Johns
(non-voting Steering Committee participants)	Derek Lieser

## Section 7: Project Boundaries

Project will involve the following:

- Consult with stakeholders
- Connect consumers to available coverage
- Certify exempt individuals
- Determine eligibility
- Assign price and quality rating to plans
- Compare plans, providers, and insurers
- Provide high-quality information to consumer
- Enroll individuals and employers
- Certify Plans
- Integrate with other State plans
- Facilitate flow of premium payments, tax credits, and subsidies
- Coordination with HIT Coordinator and OHIET
- Establish Consumer Information Service/Customer Service system

## Project will NOT involve the following:

- Design and development of individual carrier or plan products
- Development of projects or products outside the scope of the Exchange

## Section 8: Selected Schedule Milestones

- 1. Transparency of project materials via email and website communications
- 2. Project Charter completed and approved
- 3. Project Management Plan completed and approved
- 4. Project timelines and Gantt chart completed and approved
- 5. Governance developed & legislation approved
- 6. Template for Exchange enrollment and eligibility deployed
- 7. Sustainability plan developed
- 8. Request for Proposal created for Exchange development
- 9. Develop business process models and architectural diagrams
- 10. Conduct stakeholder focus groups and surveys
- 11. Develop logical data model
- 12. Create system design interface
- 13. Create call center development rules engine
- 14. Develop approved benefit package system
- 15. Create training plan and user manuals
- 16. Test summary and security testing results reviewed

## Section 9: Project Justification / Budget

Planning Grant

Oklahoma's Exchange Planning Grant award includes a total of \$1,000,000 to be spent over the course of the grant. The two major expenditures will be personnel and contractual costs.

Object Class	TOTAL	Justification
Category	REQUESTED	
	•	2 full-time project managers at pay grade 11 = \$64,000.00 per
Personnel	\$128,000.00	position, per year
Fringe Benefits	\$56,320.00	44% of project manager salary = \$28,160.00 per position
Contractual Costs	\$750,000.00	Consultant contract to conduct comprehensive research and analysis of exchange planning efforts, develop solutions, present findings, prepare written reports
Equipment	\$11,609.28	Laptop/PC/Software for two project managers at \$5,804.64 per position
Supplies	\$7,000.00	Postage/ mailing/ printing of invitations and printed materials for stakeholder meetings at \$5,000. Phone service for two project managers at \$2,000.00 for the year
Travel	\$14,000.00	In-state and out-of-state travel over the course of the grant, includes an estimated 4 out-of-state trips over the life of the grant, \$3,500 each for four key personnel
Indirect costs	\$23,070.72	ODMHSAS grant administration functions, 9.6% indirect cost rate
Other Costs	\$10,000.00	Meeting space rental fees, approximately \$500 per meeting for 20 focus groups / town halls conducted statewide
Budget Total	\$1,000,000.00	Total grant funds requested

## Section 9: Continued

- <u>Early Innovator Grant (See Attachment "A")</u>: Oklahoma's Early Innovator Planning Grant award includes a total of \$\$54,582,269 to be spent over the course of the 2 year grant.
- <u>Establishment Grant:</u> This funding opportunity is intended to support the progress of the state toward the establishment of an exchange. Oklahoma's application has not yet been submitted. Award amounts will vary based on application category and the specific needs of each state.

## Section 10: Regulatory Environment

All applicable, local, state, and federal rules, policies, Statutes or Acts as well as all known industry and or professional standards that may define the quality matrix of the project or may regulate project initiation, implementation, closing and deliverables will be strictly adhered to.

- Wanted a uniform agreement and approach to legislation
- SB 1373 passed House/Senate unanimously
- Governor signed June 2010: law took effect July 1, 2010
- Article of Indenture requires Attorney General approval
- Trustees appointed and pass background checks
- First official meeting on October 5, 2010

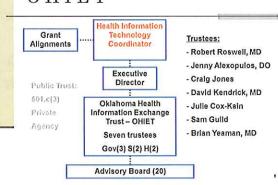

## OHIET Philosophy: neutral party

## Health Information Exchange in Oklahoma

- Statewide stakeholders have agreed on a public trust as the incorporation model
- SB 1373 enables the Oklahoma Health Information Exchange Trust (OHIET) as the public entity
- SB 1373 passed the House and the Senate by unanimous votes in each chamber
- Governor signed SB 1373 into law with an emergency clause and the effective date of July 1, 2010

## OHIET

## Oklahoma Successful Grants

Health Information Exchange;

## \$8.8M

\$1.8M and one of only eight states

Beacon Commun

\$12M and one of only seventeen states

Regional Extension Center:

Health Insurance Exchange:

Most comprehensive proposal \$54.6M and one of only seven states

largest

First state to have approval

Tied with Kentucky as the first state to make a payment Awarded \$294M to the medical community

\$1M (applied)

## **GRANT WRITING**

- **TECHNOLOGY DRIVEN**
- LEVERAGE EXISTING STAFF
- STANDARDS: transactions/code sets/vocabularies
- LEVERAGE CONTRACTS
- **RULES ENGINE**
- SYNERGY WORK WITH OTHER GRANTS
- **OUTSCOURCING BRICKS and MORTAR**
- TIME IS OF THE ESSENCE PRAGMATIC ,

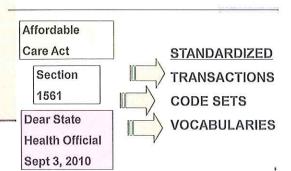

## **OHCA/ISD Outsourced Contracting**

	State	Private
	Agency	Sector
Average	9.4%	90.6%
Re-compete	7.8%	92.2%
OHX grant	2.1%	97.9%

## STAKEHOLDER GATEWAY TO **HEALTH CARE SYSTEM**

## **OHX = TECHNOLOGY GRANT**

## CLIENT - WEB PORTAL (pink box)

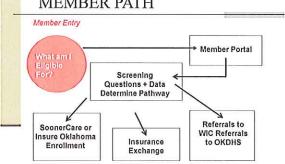

## LOGICAL MODEL

## WEB PORTAL – first check

- Insure Oklahoma/Premium Assistance
- SoonerCare
- Breast & Cervical Cancer
- WIC (maybe)
- Other state programs

## MEMBER PATH

## WEB PORTAL - next check

- Move to customer to insurance exchange
- Seamless handoff
- Standards
- Possible separate vendor

## Online Enrollment = Pink Box

- Qualify for programs with one application
- Web (SOAP) services
- Rules based qualification that took three years to write all of the ~16,000 Boolean logic rules
- □ Operational since September 2010
- Proven track record
- Lower risk for project delays compared to new ground-up development
- Scalable hardware architecture

## VALUE TO CLIENTS

- Qualify for programs with one application
- Technology and complexity hidden behind the web portal
- Toll free technical support + questions
- Plastic ID card
- Personal health record to keep
- Bridge into medical community
- Fast and easy access to commercial plans
